Principais Objetivos:

The Workshop "Post Pandemic Interaction of People and Places within Space" mobilizes some members of the Editorial Team and Editorial Board of the journal and is open to the participation of participants that want to take part in the topics of the workshop. The aim of the workshop is to create a vision of the journal to better analyse the post pandemic interaction of people and places within space. To achieve this the program organizes into three parts. First, an analysis of the emerging issues in different regions of the world: Africa and Middle East, North America, South America, Western Europe, Eastern Europe, Global South. Second, a brainstorming on the methods and techniques suitable to analyse those emerging issues. Finally, a discussion of the Post Pandemic Interactions of People and Places within space.
